Name of the organization- Casa-Dei-Bambini Montessori House

Date- 19.02.2024-23.02.24

Objective of the Internship-

In this internship, we primarily focused on how a preschool education sector operates, and we chose Casa-Dei-Bambini Montessori House for hands-on experience in understanding

their curriculum, educational methods, aspects that contribute to a child's development, and how they enhance those aspects.

What is Montessori method of education?

Montessori method of education was developed by Maria Montessori, is a child centred educational approach based on scientific observation of child to 2-6 years. It is an approach that values the human spirit and the development of whole child- physical, social, emotional, cognitive.

Activities of Montessori method-

Sensorial, EPL (exercises of practical life) , language, arithmetic, rhymes, action songs, yoga, free hand exercise, art and craft, it helps to focus on the whole child. And Montessori environment is a activity centre environment.

Steps of presentation-

1. Preparation
2. Invitation by a bell
3. Sit in a semicircle
4. Mention what you are going to show
5. Fetch the material
6. Presentation facing the children with analysis of movements
7. Repeat with verbal summary
8. Winding up

Touch stone of Montessori-

1. Respect the child

2. Follow the child

3. Love the child

Philosophical aspect of a Montessori-

A Montessori house is like an oyster. A young side is like a spit of dusk which enders its body. The oyster deposits certain substances on it forever, nurtures it, let's it out as a beautiful pearl to blind the world with its dazzling brilliance. The beauty of the pearl depends on the way it's nurtured.

Activities observed-

At Montessori House, children aged 2-6 are divided into four classes: Preliminary, Nursery-I, Nursery-II, and Advanced. School hours are from 9:30 AM to 12:45 PM. There are 4 teachers, 1 yoga instructor, 1 music teacher, and 2 helpers, maintaining a 1:9 teacher-student ratio. Each class comprises a group of 12 children, organized according to age.

The Preliminary class focuses primarily on physical development and eye-hand coordination through activities such as holding a bangle, dancing to songs/rhymes, forming circles with friends, jumping, and various physical movements including yoga.

Nursery-I (2-3.9 years) emphasizes sensory-motor development with activities like touchboards, block and tower building, color matching, pouring water/rice, counting with rods, puzzles, threading beads, and napkin folding.

Nursery-II (3-4 years) includes activities like alphabet and number boards, noise boxes, block puzzles, shape matching, addition, and stair building.

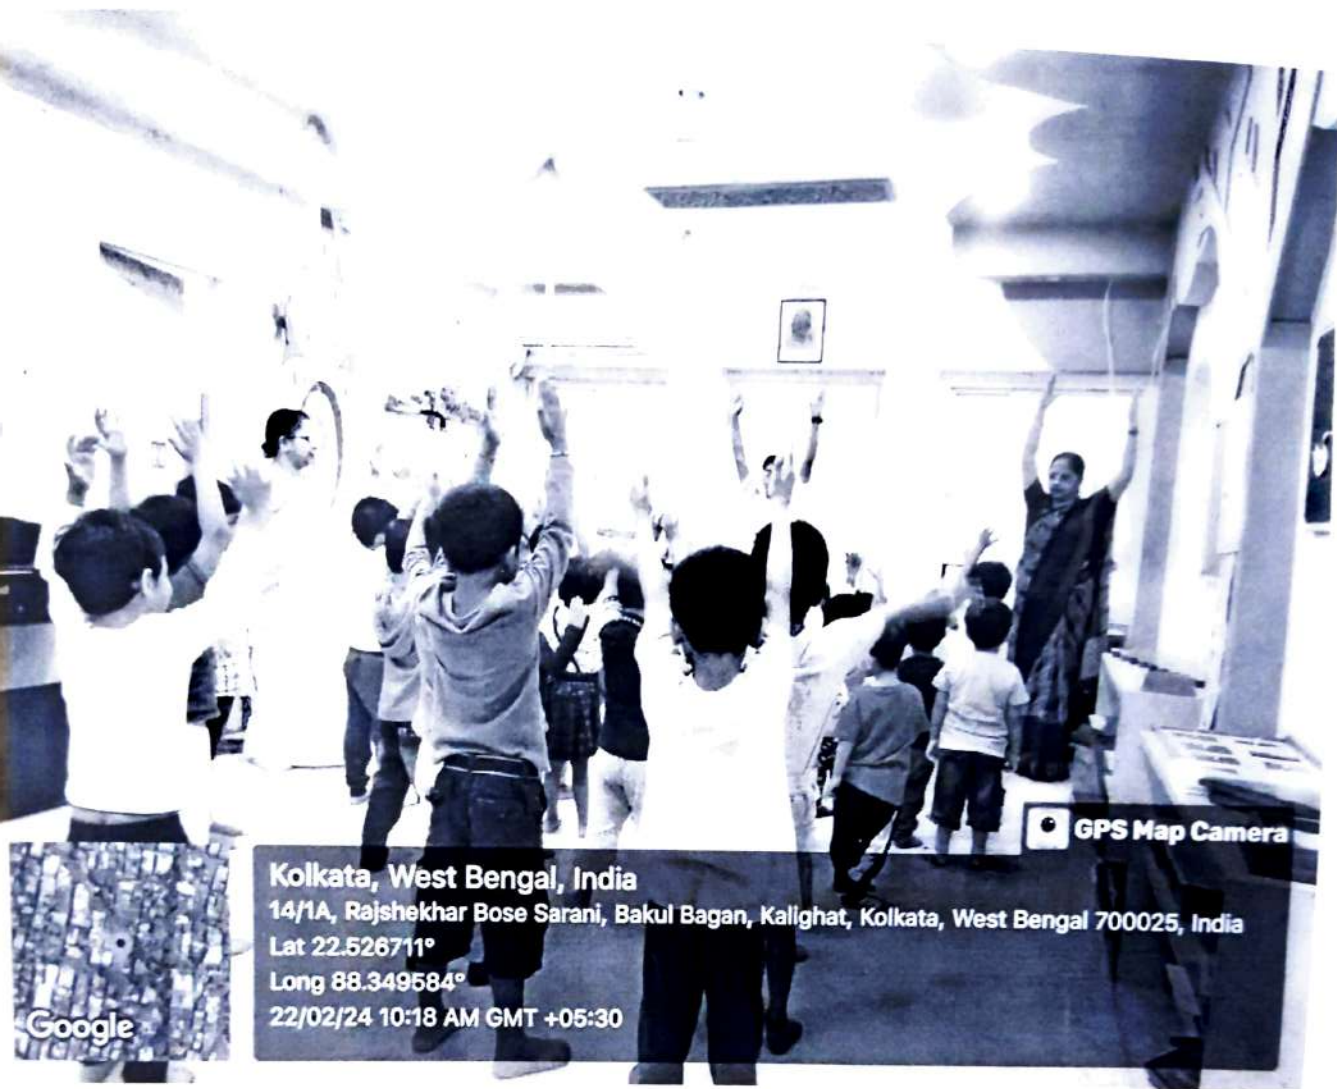

Advanced class (4+ years) focuses on arithmetic, cognitive development, and activities such as shape matching, multiplication and addition boards, static cards with beads, constructive triangles, and word building.

Language development is emphasized in all classes through pronunciation, learning meanings of various words, and colors and objects. Prepositions are taught in the Advanced class.

Additionally, all classes participate in art and craft, yoga, dance, and music sessions together. The school also provides infrastructure including an audiovisual room, library, talking pen, toys, and child-friendly toilets and sinks.

Experience gathered-

My internship experience at Montessori House has been enriching and enlightening. It has given me a profound understanding of how a Montessori school operates and the intricate balance it maintains between structured learning and holistic development. Witnessing the dedication of the staff and the carefully curated activities tailored to each age group has emphasized the importance of individualized attention in early childhood education. Moreover, the emphasis on language development, alongside the integration of various art, yoga, dance, and music classes, highlights the school's commitment to nurturing well-rounded individuals. Overall, my time at Montessori House has deepened my appreciation for the Montessori method and its transformative impact on early childhood education.

Subject: Proposal for Organizing Short-Term Courses in "Fashion Garments Manufacturing" and "Solar Panel Repairing" for Our Students

Dear Sir,

I am writing this proposal to request you to organize short-term courses in "Fashion Garments Manufacturing" and "Solar Panel Repairing" for the students of our college. As you are aware, the job market has become very competitive, and students need to have additional skills and knowledge to stand out from the crowd. These courses will provide them with valuable skills that will make them more employable and help them secure better job opportunities. I also request you to organize the courses in subsidized rate to make it affordable for the students of our institution.

As per verbal communication with you, I have attached herewith the details of the willing students for the above mentioned courses. I request the support of MSME DFO, Kolkata in arranging for the trainers, course materials, and other necessary resources.

Thank you for considering our proposal.

Sincerely,
