Programme Details

After the welcome address by our respected Principal Sir Dr. Shyamal Karmakar and followed by brief introduction of the Speaker, we started the session.

Dr. Sanyal began the session by introducing the importance of counseling especially from psychoanalytic view. As the programme was based on learning the Counseling strategies especially for children with behavior problems and children with Special Needs therefore Dr. Sanyal mainly emphasized on how to develop the qualities of being a good counsellor to handle such problems. With the help of real life incidents she explained the ways of counseling such children as well as guiding them. As the workshop was totally curriculum oriented therefore students have been benefitted a lot and it also instilled a positive energy among the students (reflected from student feedback).

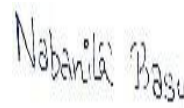

The lecture programme was followed by Valedictory Session where Dr. Sanyal interacted with the students and cleared all their doubts and queries and from an overall perspective she provided a very good direction to all the students to combat the present pandemic situation also.

After the Valedictory Session the vote of thanks was given by Dr. Kamala Mitra (IQAC Co-Ordinator) and shared the pleasing experience of having a speaker like her.
